

**State Survey on ERP and Other Systems
as published by the National Association of State Comptrollers**

2006 Data		System Information
Kentucky	\$3.0 million	Partial ERP System
Missouri	\$2.6 million	Partial ERP System
Montana	\$5.4 million	Partial ERP System
Oregon	\$7.0 million	Partial ERP System
Pennsylvania	\$42 million	Full ERP System
South Carolina	\$11.8 million	Partial ERP System

This is the data that we have obtained concerning what other states are paying in ongoing operational costs for ERP or other systems.

A majority of the states do not have ERP systems in place and do not know what their maintenance costs are or will be in the future.

This information was reported to the National Association of State Comptrollers and published on their website.
